EDUCATION

Bachelor's of Technology in Computer Science & Engineering

Indore, India

Medi-Caps University Indore - (08/2021 - 05/2025)

CGPA: 8.34

HSC

Mumbai, India

KJ Somaiya Junior College of Science and Commerce - (03/2020 - 05/2021)

Percentage : 95.66%

EXPERIENCE

Codemines Solutions Pvt Ltd (Software Engineer Intern - 01/2025 - 07/2025)

Mumbai, India

- Designed and integrated **15+ RESTful APIs** to enhance the PermAssist platform, enabling seamless communication between the frontend, backend, and third-party services — resulting in a **30% improvement** in data exchange efficiency.
- Led the design and development** of an AI-powered chatbot frontend using React and TypeScript.
- Integrated **Amazon Lex** into the ChatAssist product to automate **60% of user queries**, improve response time by **40%**, and significantly scale user support and engagement.

Tata Consultancy Services (Project Intern - 06/2024 - 08/2024)

Mumbai, India

- Developed **20+ high-performance RESTful APIs** using Node.js for AGM and IEPF platforms, boosting data retrieval speed by **40%** and enhancing backend throughput.
- Built and deployed **responsive Angular interfaces**, driving a **30% increase in user interaction** and improving on-site engagement by **20%**.
- Optimized web performance to achieve **<2s load times** using Angular, Bootstrap, JavaScript, and Node.js — resulting in a **15% increase in user retention**.

SKILLS

- Programming Languages** : C++, JavaScript, TypeScript .
- Frameworks/Libraries** : Angular, React, Nextjs , Bootstrap , Material UI .
- Tools / Platforms** : Nodejs , Visual Studio Code (VS Code) , Postman, Git .
- Databases** : MsSQL (SQL), MongoDB (NoSQL).
- Methodology** : Agile , Software Development Life Cycle (SDLC) .
- Additional Skills** : HTML , CSS .
- Ai tools** : Cursor Ai, Databutton, Cline, Bolt, Lovable.

PROJECTS

AiAssist

Codemines Solution Pvt Ltd (Internal Project)

- Spearheaded frontend development using **React, TypeScript, and Tailwind**, reducing development time by **30%** through reusable components and streamlined state management.
- Collaborated with backend and ML teams to implement **real-time, context-aware conversations**, boosting user engagement by **25%**.
- Enhanced performance and accessibility, raising **Lighthouse scores by 35%** and driving a **20% increase in daily active users** within three months.

CodeBuddy

Freelance project

- Architected a robust backend supporting **100+ concurrent users**, ensuring high availability and seamless performance.
- Built a **responsive frontend using Next.js**, improving cross-device compatibility and reducing bounce rates by **30%**.
- Developed and integrated **event-driven RESTful APIs** for real-time room creation and session management, enabling **500+ coding sessions per week**.
- Implemented **real-time chat** using Appwrite with sub-second latency and **99.9% uptime**, enhancing collaborative efficiency.

AGM (Annual General Meeting)

Tata Consultancy Services (Internal Project)

- Led the design of **intuitive, user-friendly Angular interfaces**, increasing user engagement by **30%**.
- Refined **10+ RESTful APIs** using Express.js, reducing backend data processing time by **35%**.
- Applied best practices in **modular architecture** and **state management**, improving app performance by **25%** and ensuring scalability.
- Coordinated with cross-functional teams, reducing project delivery time by **15%** through streamlined task management and communication.

CERTIFICATES

- Tata Consultancy Services 📄
- Smart India Hackathon 📄
- Young Turks by Naukri 📄
